Observ® 320 skin analyzer

Professional skin analysis - look deeper, see clearer and treat better.

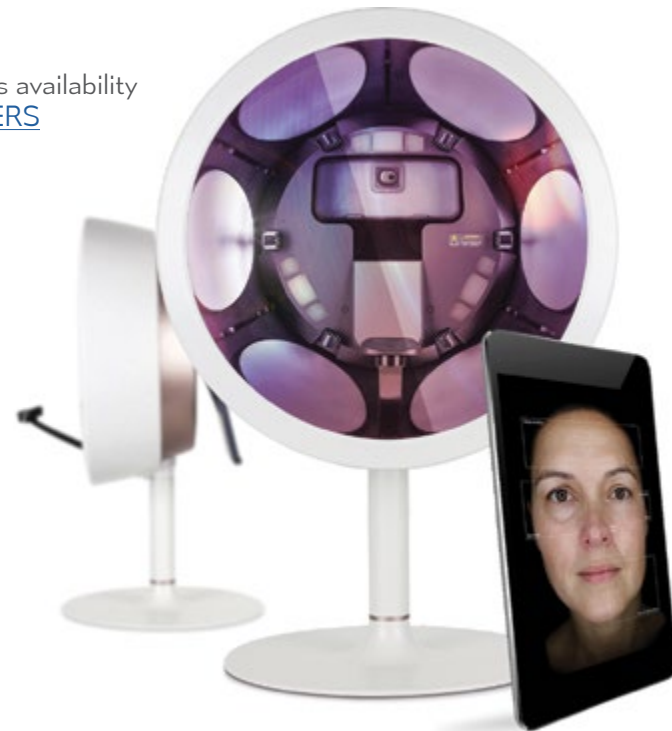

Every skin has a story - travel through the layers and **discover what your skin needs.**

From the surface layer to below, Observ uses different patented LED light sources and filters to reveal how subtle signs of ageing and skin health contribute to appearance. This visible information enables therapists to understand your skin and provide **result-oriented solutions tailored to your individual needs.**

What will this skin scanner do for you?

- **Provide clarity** about your skin goals & priorities by seeing the bigger picture.
- **Show the contribution** of subtle skin features and concerns to the overall appearance.
- **Track treatment results** and define new goals by reviewing and discussing before and after images.
- **Get specified advise** on further skincare regimen.

0.1% Retinol · 0.5% Bakuchiol · 5% Glycolic acid

Night serum with a powerful blend of concentrated ingredients to achieve the perfect balance between effectiveness and tolerance. It renews the skin and provides everything it needs: **firmness, hydration and luminosity**. Improves the absorption of the skincare products applied afterwards, acting as a booster for your beauty ritual.

FOR WHO?

- **Mature skin** types looking for an anti-aging shock treatment.
- Young people with signs of **premature aging**.
- To improve the appearance of **post-acne scars** and marks, dark spots and uneven pigmentation.
- Ideal for **enhancing the results** of brightening treatments.

MIX & MATCH

If you wish to use this serum together with other products containing retinol or glycolic acid, these are our recommendations:

- **Retinol** - to include another retinol product, wait at least a month until your skin gets used to the first one. In case of any side effects, stop using both products daily and apply them on alternate days until your skin returns to normal.
- **Glycolic acid** - to combine with a product containing glycolic acid, do not apply both on the same day, especially on sensitive skin.
- **Treatment** - after a professional treatment, wait 48 hours before using this serum again.
